I'm Samer. I'm interested in unusual things around the world. One day, I found an unusual house in the Netherlands online - it's upside down! It is actually an old farmhouse which people are changing to make it modern. This works very well because all the windows are at the top, so you get a lot of light.

Local people like it because it fits in very well with the local landscape, which is farms and fields. It is also very ecological because they use air, water, and sun to heat and make energy for the house. That's so cool!

Dear Ali,

This week we're talking about unusual animals at school. We looked at animals from around the world and some from Egypt. I think my favorite unusual animal from Egypt is the panda. Pandas live in forests high in the mountains. They eat bamboo. They are black and white. Pandas can adapt to their environment, which is cold and snowy.

Hope to hear from you soon!

Ola
